

# Charlie

**My name is Charlie. I was rescued by the HSCC in 2015. At the time of my rescue I was very ill. I was taken to the home of Michele Harris, who was the best foster mom ever and eventually adopted me. She nursed me back to health after several operations to remove infected teeth. I am positive for Feline FIV and I am deaf. But I am a fierce fighter and my will to live was greater than my infections. Because I have no teeth, I can only eat canned cat food but that does not slow me down. I have learned to travel in a car to Maryland with my mom every weekend. I am a very happy cat to have found such a great home where I rule my 4 sisters and one brother. I think I am the luckiest cat on Earth!**
